1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Susan McBee, attorney of record, on November 14, 2003.

2. In the claims:

Cancel non-elected claim 8.

3. New drawings are required in this application because the drawings as filed on November 15, 2001 are objected to as containing captions written in a non-English language. Corrected drawings must be submitted.

4. The following is an examiner's statement of reasons for allowance:

The instant claims are to a process which includes a step of strain hardening to obtain a permanent deformation of between 2-10% of the final thickness. In the only applied prior art which discloses strain hardening (Papich), the amount of strain hardening therein would likely result in a far greater degree of deformation, as indicated on page 5 of Applicant's October 30, 2003 response. Thus, the rejections based upon Papich combined with either Sontgerath or with Applicant's prior patent claims are withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
